

CLOSURES THAT OPEN UP MANY POSSIBILITIES

ISO 9001
Company

About Us

Decap Closures is a well established organisation, that has earned reputation for quality and performance of its closures.

Adapting technology innovations and equipped with latest machines and testing equipments, the company offers a wide range of closures, conforming to international standards.

Decap Closures looks ahead into the future with confidence and dedicates itself to offer the very best to their growing number of customers world wide.

Cap Molding

Cap Assembly

Raw Material

Decap Manufacturing Plant

Decap Press Fit Pull Out Type Spout Closures

1. Decap 32mm P.F
2. Decap 42mm P.F
3. Decap 57mm P.F

All above spout closures

1. Funnel integrated pour spout closures for DIN type opening
2. Double bail cap is easy to open & close.
3. Tamper evident tear out diaphragm integrated.
4. All spout closures are stackable.

Features :

Available in 3 types (possible application)

1. Standard for oil products (STD)
2. Food grade for edible products(F G)
3. Irradiated & fluorinated for strong chemicals & solvents.(IRR)

Pull Out Spout

Decap Crimp On Type Pull Out Spout Closures

1. Decap 42 C.O

Decap 42mm crimp on type 3 piece spout closures has all the benefits of pull out type spout closures and in addition it is equipped with food grade steel metal retainer to make the packaging as complete tamper & duplicate proof.

1. Tamper proof.
2. Extra empty feature.
3. Printable Top Cap. (Advertisement)
4. Automatic sealing of closure with can possible.

Features :

Available in 3 types (possible application)

1. Standard for oil products (STD)
2. Food grade for edible products(F G)
3. Irradiated & fluorinated for strong chemicals & solvents.(IRR)

Crimp On Pull Out

Decap Crimp On Type Pull Out Spout Closures

Decap 63mm crimp on type pull out spout closures 4 piece.

This size of decap Plastic spout closure is available in various design & style.

1. Decap 63mm C.O STD :

It is standard type 63mm crimp on spout closure suitable for metal pails, drum & Plastic Pails/ Buckets.

2. Decap 63mm C.O A.G. :

It has all facilities like standard type but has an added very important advantage of antigurgling feature due to which the air inflow in the container is allowed resulting in continuous uninterrupted dispensing of container.

Above both type of decap 63mm crimp on type spout closures, comes with different type of top seals such as :

- A. Plastic easy tear top seal
- B. Plastic solid seal top seal
- C. (New) Alluminium foil printed in 4 color tamper proof top seal Introduced in the world for the first time by Decap Closures. Fully tamper proof and multicolored printable for esthetic looks.

Crimp On Tamper Proof

Decap Rigid Screw Type Plastic Closures

Decap Rigid screw type plastic closures are available in various design and sizes.
Such as:

- A. Decap 32mm R.CL**
- B. Decap 42 R.CL**
- C. Decap 60mm R.CL**

These Rigid type closures are suitable for metal cans, Pails etc which requires large opening for dispensing and ideal for viscous contents like paints, Adhesives etc. Screw fitting with conical base for small as well as large containers. Built in tamper evident tear out diaphragm.

All decap rigid screw type spout closures are available in

- A. Child resistance(C.L) Standard(STD)**
- B. DIN as well as REL type opening**
- C. Also available with Dauber as well as brush type attachments for viscous glue, cement etc type of products.**

Features :

Available in 3 types (possible application)

1. Standard for oil products (STD)
2. Food grade for edible products(F G)
3. Irradiated & fluorinated for strong chemicals & solvents.(IRR)

Rigid Screw Type

Decap 42mm Crimp On Type Easy Tear Spout Closures

1. Decap 42mm C.O E.T

Decap 42mm easy tear spout closure,
A special design for metal cans for Tamper
Proof & the best asthetic looks.

1. Easy tear for easy to use tamper proof seals.
2. Manual as well as Auto crimping possible.
3. Printed stickers for advertisements.
4. All benefits of pull out type spout closures.

Features :

Available in 3 types (possible application)

1. Standard for oil products (STD)
2. Food grade for edible products(F G)
3. Irradiated & fluorinated for strong
chemicals & solvents.(IRR)

Crimp On Easy Tear

Decap 35mm Junior High Profile Spout Closure

1. Decap 35 H.P

First time Introduced by **Decap Closures** 35mm Junior spout closure with high profile and tear seal integrated in the closure for Tamper proof and consumer friendly. High Profile is high funnel for dispensing & emptying where ever required without spillage, wastage.

Also tear seal Provided to avoid any unhygienic sharp tools for piercing the cap making it non edible product. So always use Decap food grade closure.

1. High Profile Funnel
2. Tear Seal Diaphragm.
3. Open & Close easy & unlimited times.
4. 100% food grade.
5. All other benefits are like pull out spout closures.

Features :

Available in 3 types (possible application)

1. Standard for oil products (STD)
2. Food grade for edible products(F G)
3. Irradiated & fluorinated for strong chemicals & solvents.(IRR)

Junior Tamper Proof High Profile

Decap 79mm Ultrasonic Weldable Spout Closures.

Decap 79mm U. W. (P.E and P.P) (New From Decap)

Decap 79mm All Plastic Ultrasonic Weldable
Antigurgling spout closures

New Design : Centralized Two Bail (Handle) lift
pull out for better opening & closing.

Effective Welding of Closure directly to 'PE'-
and 'PP'- lids through welding ring
Technology. Ultrasonic welding.

Lid aperture formation : Can be carried out via
in-mold insert during injection or post-mold
piercing the required orifice diameter : 61mm
nominal.

1. Fast production of lids as no profile needed
just a simple hole.
2. Completely leakage proof & tamper proof.
3. All plastic is 100% recyclable.
4. Double bail centralized pull out handles(New).

Features :

Available in 3 types (possible application)

1. Standard for oil products (STD)
2. Food grade for edible products(F G)
3. Irradiated & fluorinated for strong
chemicals & solvents.(IRR)

Ultrasonic Weldable Spout

Other Different Type Of Closures

- 1. Press Fit type Spout Closure For Plastic Pails/ Buckets : Decap 14 P.F**
This design is all plastic Spout Closure for Plastic pails just need to press in the Pail Lid. It locks & become Tamper Evidence, Antigurgling feature is added for better smooth Flow.

- 2. Polyvent Flip Top Type: Decap P.V 52**
This Flip Top type Polyvent is for Plastic or steel Pails/ Drums etc for venting Facility to let Air inside the container to maintain the dispensing the flow property.

3. Tint Plugs

Decap 50mm T.P(p)

For plastic Pails,

Decap 50mm T.P (s)

For steel Pails, drum

Decap 50mm P.O

Decap 50mm pull out spout closures for tint plug opening.

Can fit in opening of Tint Plug in plastic pails as well as steel pails. Two handle centralized pull out for better dispensing. Has all benefits of pull out spout closures.

Other Type of Closures

1

Press fit spout closures for Plastic Pails/ Buckets.

2

Polyvent Flip Top Type

3

Tint Plugs

1

2

3

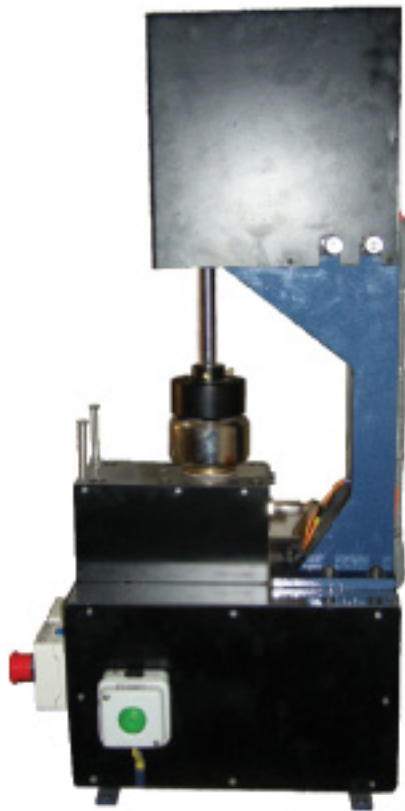

Insert molding spout closures
for plastic pails/ buckets

Pull out Spout closures for
plastic jerry cans/ Bottles

PFA 32mm for Big Drums
Steel/ Plastic Drums

Fully Auto Crimper Machine

This is Auto Nuematic Crimping Machine used to Crimp 63mm spouts on Plastic Pail/ Bucket. This helps fast Crimping operation by single person on Plastic Pail Lids.

Auto sealing Machine

This is Auto Sealing Machine requires only Electric power supply. And can be Used for 42 Crimpon and 63mm Crimpon type Closures for both Plastic Pails & Metal Cans, Pails, Drums etc

Crimping & Sealing Tools

This tool is Manually handled for both 42 Crimpon & 63 Crimpon type Closures. Easy to handle and a single person can Crimp the Closures on Plastic Pails & Metal Cans, Pails, Drums etc.

Semi Auto Crimping Tools

This is Semi Automatic Nuematic Crimping tool used for both 42 Crimpon and 63 Crimpon type Closures. This tool requires minimum 4 bar air pressure to operate.
